Notes on contributors xiii

Introduction xxi

Part 1: Research into health literacy: An overview of recent developments 1

The many facets of health literacy: Scoping the current research of theories, concepts and models

1 Defining health literacy: Exploring differences and commonalities 5
   Kristine Sørensen

2 From Saranac Lake to Shanghai: A brief history of health literacy 21
   Orkan Okan

3 Health literacy of children and adolescents: Conceptual approaches and developmental considerations 39
   Janine Bröder and Graça S. Carvalho

4 The concept of mental health literacy 53
   Anthony F. Jorm

Measuring health literacy: What, why and how?

5 Measuring health literacy in adults: An overview and discussion of current tools 67
   Andrew Pleasant, Caitlin Maish, Catina O’Leary and Richard Carmona

6 Measuring children’s health literacy: Current approaches and challenges 83
   Torsten Michael Bollweg and Orkan Okan

7 Developing an instrument for measuring the health literacy of adolescents: Lessons learned 99
   Christiane Firnges, Olga Domanska and Susanne Jordan

8 Measuring health literacy in Europe: Introducing the European Health Literacy Survey Questionnaire (HLS-EU-Q) 115
   Jürgen M. Pelikan, Kristin Ganahl, Stephan Van den Broucke and Kristine Sørensen
Health literacy, health outcomes and health inequalities: Some empirical findings

9 Health literacy and health disparities: A global perspective
Sarah Mantwill and Nicola Diviani

10 Health literacy in later phases of life: Findings from Germany and other countries
Dominique Vogt, Doris Schaeffer and Eva-Maria Berens

11 Critical health literacy for the marginalised: Empirical findings
Susie Sykes and Jane Wills

12 Health literacy and chronic conditions: A life course perspective
Gill Rowlands, Joanne Protheroe, Luis Saboga-Nunes, Stephan Van den Broucke, Diane Levin-Zamir, and Orkan Okan

13 Health literacy research in the Nordic Countries
Kristine Sørensen and Josefin Wångdahl

Part 2: Programmes and interventions to promote health literacy

An overview of interventions and programmes

14 Improving health literacy in clinical and community populations
Don Nutbeam and Bronwyn McGill

Interventions and programmes for children and adolescence

15 MEDIA PROTECT: A setting- and parent-targeted intervention for a healthy childhood in the digital age
Paula Bleckmann, Hanna Schwendemann, Simone Flaig, Lea Kuntz, Anja Stiller, Thomas Mößle and Eva Maria Bitzer

16 Using Photovoice as a participatory approach to promote youth health literacy
Paola Ardiles, Marlies Casteleijn, Charlene Black and Kristine Sørensen

17 Mental health literacy for refugee youth: A cultural approach
E. Anne Marshall and Deborah L. Begoray

18 Media health literacy, eHealth literacy and health behaviour across the lifespan: Current progress and future challenges
Diane Levin-Zamir and Isabella Bertschi
Contents

19 School-based mental health literacy interventions
Kathryn Cairns and Alyssia Rossetto

20 Health literacy interventions for children or adolescents: An overview and insights into practical applications
Andrew Pleasant, Kristen Haven Griffin, Caitlin Maish, Catina O’Leary and Richard Carmona

Interventions and programmes for adults and older adults

21 Health literacy interventions in the delivery of pharmaceutical care
Laura J. Sahm, Suzanne McCarthy and Sarah Marshall

22 A stated preference discrete choice health literacy intervention framework for the control of non-communicable diseases (NCDs) in Africa
Kenneth Yongabi Anchang and Theckla Kwangsa Mbunwe

23 Occupational health literacy: Healthy decisions at work
Marie Birk Jørgensen and Anne Konring Larsen

24 Mental health literacy interventions in adults
Anthony F. Jorm

25 An empirical perspective on the concept of mental health literacy in the field of families with parental mental illness
Kathrin Schulze, Patricia Wahl, Dirk Bruland, Stefanie Harsch and Michael Rehder

26 Putting the literacy back into health literacy: Interventions in US adult literacy and English language programmes
Maricel G. Santos and Julie McKinney

Part 3: Policy programmes to promote health literacy

27 Health literacy policies: European perspectives
Iris van der Heide, Monique Heijmans and Jany Rademakers

28 Developing health literacy policy in Scotland: A case study
Graham Kramer, Blythe Robertson, Phyllis Easton and Andrew Pearson

29 Health literacy policies: National examples from Canada
Sandra Vamos, Irving Rootman, Linda Shohet and Lorie Donelle
30 Health literacy policies: National example from Austria – A unique story and some lessons learned from an ongoing journey
Peter Nowak, Christina Dietscher and Marlene Sator

31 Health literacy policy in Australia: Past, present and future directions
Anita Trezona, Emma Fitzsimon and Sarity Dodson

32 Health literacy policies: National examples from the United States
Julie McKinney and R. V. Rikard

33 Health literacy in New Zealand: A tale of serendipity and indigenous health
Susan Reid and Carla White

34 Health literacy and the school curriculum: The example of Finland
Olli Paakkari and Leena Paakkari

Part 4: Future dialogue and new perspectives

35 Health-literate healthcare organisations
Jürgen M. Pelikan

36 Future avenues for health literacy: Learning from literacy and literacy learning
Paulo Pinheiro

37 The social embeddedness of health literacy
Ullrich Bauer

38 Children as active participants in health literacy research and practice?
From rhetoric to rights
Emma Bond and Vanessa Rawlings

39 Health literacy practices of adults in an avatar-based immersive social virtual world: A sociocultural perspective of new media health literacies
Evelyn McElhinney

40 Health literacy and participation in the healthcare of adults: (in)compatible approaches?
Melanie Messer

41 A lifespan perspective on health literacy: Ageing and end-of-life issues
Barbara K. Kondilis

# Tables

1.1 Definitions of health literacy  
3.1 Examples of health literacy levels according to age groups  
4.1 Examples of vignettes used in community surveys of mental health literacy  
5.1 Most mentioned or cited health literacy measurement tools  
5.2 Supporting definitions and size of existing health literacy tools  
5.3 Attributes and limitations of existing health literacy tools  
6.1 Measures of children’s health literacy  
8.1 HLS-EU health literacy matrix  
8.2 Overview of general population studies using the HLS-EU-questionnaire  
11.1 Studies of interventions to promote critical health literacy  
13.1 Health literacy glossary for the Nordic languages  
19.1 Promoting mental health literacy across the spectrum of mental health interventions  
20.1 Selected outcomes for adults and youth in the Healthy Community Program  
20.2 Selected outcomes reported by adult and youth participating in the LEP for teens  
20.3 Key points for consideration when building health literacy interventions for youth and adolescents  
23.1 Components of the intervention and the purpose and focus of the components for employee and supervisor  
23.2 Occupational health literacy  
23.3 Participation in the courses  
27.1 Level of establishment of the concept of health literacy in policies across EU member states  
27.2 Aims of policies and actions across EU member states  
27.3 Implementation of national policies across countries  
27.4 Type and number of actions at a national level and involved initiators/stakeholders  
27.5 Type and number of actions at a regional level and involved initiators/stakeholders  
29.1 Milestones in the development of health literacy in Canada  
31.1 Early national policies containing health literacy (2009-13)  
31.2 Proposed actions/strategies within national and state government policies developed prior to 2014  
31.3 Current state government policies that incorporate health literacy  
31.4 Org-HLR framework domains and descriptions  
34.1 Examples of objectives in grades 1-2, divided into health literacy components  
34.2 Examples of objectives in grades 3-6, with health literacy components and assessment criteria for ‘good’ knowledge at the end of grade 6
List of figures, tables and boxes

34.3 Examples of objectives in grades 7-9, health literacy components and final assessment criteria for 'good' knowledge 530

42.1 The World Health Organization's Global Conferences on Health Promotion 652

43.1 Empirical studies identified under each research tradition 669

44.1 Examples for the interplay between individual and social/environmental factors 698

Boxes

23.1 Example of (some of) the occupational health literacy competences required to ensure good return-to-work for a previously sick listed employee 349

25.1 Knowledge and beliefs 378

25.2 Recognition of disorders to facilitate help-seeking 378

25.3 Knowledge of professional help and treatments available, of effective self-help strategies and skills to give first aid and support to others 379

25.4 Knowledge of how to prevent mental disorders 379

25.5 Structures (additional dimension) 379

25.6 System (additional dimension) 380

25.7 Everyday life (additional dimension) 380

25.8 Professional role (additional dimension) 380

27.1 Applied work definitions of policy and action 405

27.2 Austria: Example of a national policy to promote health literacy 409

27.3 Ireland: Example of a national policy to promote health literacy 410

27.4 Italy: Example of a national policy to promote health literacy 410

27.5 Portugal: Example of a national policy to promote health literacy 411

27.6 United Kingdom: Example of a national policy to promote health literacy 412

28.1 Key concepts underpinning Scotland’s health literacy approach 421

28.2 Five simple tools and techniques 426

30.1 The Austrian Health Literacy Alliance (ÖPGK) 459

30.2 A national strategy for improving the quality of personal communication in healthcare 460

30.3 Manual for evidence-based, independent, understandable and gender-sensible health information 461

31.1 National statement on health literacy 476

31.2 Northern New South Wales health literacy framework 2016-17 479

31.3 Tasmanian Communication and health literacy action plan 2015-17 480

32.1 Goals of the National action plan to improve health literacy 495

34.1 The core components of health literacy 525

35.1 Ten attributes of health-literate healthcare organisations 544

35.2 The nine standards of a health-literate organisation 546

44.1 UN Convention on the Rights of Persons with Disabilities, Article 25 – Health 696
